WELCOME FROM IJRU

WELCOME TO THE PINNACLE OF OUR SPORT

Dear Athletes, Coaches, Officials, Families, and Supporters,

On behalf of the Championship Committee and the International Jump Rope Union, I am delighted to welcome you to the beginning of the journey toward the 2027 IJRU World Jump Rope Championships, to be held in Oslofjord, Norway.

This championship journey is about far more than a single moment in time; it is a shared process that unfolds over many months. While athletes may ultimately take the floor, every step along the way is shaped by the dedication, care, and expertise of coaches, the professionalism and leadership of officials, and the unwavering support of families and teams. Each of you plays a vital role in making the World Championships possible, and we are grateful to walk this path with you.

As we move through the next 12 months of planning and preparation, our aim is to create an experience that feels collaborative, clear, and supportive for everyone involved. We are committed to partnering closely with our National Governing Bodies and their teams, providing the information, structure, and support needed to make this journey as smooth and positive as possible, for you and for the athletes you guide.

Hosting the 2027 World Championships at the Oslofjord Convention Centre will allow us to envision a truly connected global gathering. By bringing our community together in one shared location, we hope to create a welcoming, village-style environment where athletes, coaches, officials, and supporters can stay, connect, exchange knowledge, celebrate cultures, and build relationships that extend well beyond the competition floor.

To our athletes: this is the beginning of an exciting chapter, one that will challenge you, grow you, and create memories that last a lifetime. To our coaches and officials, thank you for the countless hours, thoughtful preparation, and leadership you bring to every stage of this process. Your work ensures excellence, fairness, and confidence throughout the championship experience. To families and supporters, your encouragement and belief are essential to every step of this journey. Organisers and NGB leaders, we thank you for the hours of preparation and dedication you will contribute in the lead up to this incredible event.

Over the coming months, we look forward to working alongside you as plans take shape and the World Championships draw closer. Together, let us build a championship defined not only by performance and results, but by partnership, respect, and a shared love of our sport.

THE COMPETITION

THE COMPETITION

YOUR STAGE AWAITS

The 2027 World Jump Rope Championships and Junior World Championships take center stage—where the world's best athletes compete for the ultimate titles.

We are also proud to introduce the inaugural ISF World School Jump Rope Championships, opening the door for school-based participation on a global stage. Before the main events, the Norway Open offers further opportunities for competition and growth.

WORLD CHAMPIONSHIPS (WC)

The WC consists of elite athletes 16 years or older (with exceptions for team events) who have demonstrated the highest level of skill within the sport of jump rope. Competitors passed the qualifying rounds of each country or have been selected by their National Governing Body (NGB) to compete. The WC has a two round structure: athletes compete in the preliminary round to determine the all-around and for a spot in the final round. The winner(s) of the final round will be crowned the World Champion(s).

JUNIOR WORLD CHAMPIONSHIPS (JWC)

The JWC is a one-round competition that runs alongside the WC. Competitors in the JWC are between the ages of 12 and 15 years. Competitors are junior athletes who have demonstrated the highest level of skill and achievement within the sport of jump rope in their age category. Like the WC, competitors competing in the JWC must have passed qualifying rounds of each country or be selected by their NGB to compete.

THE COMPETITION

YOUR STAGE AWAITS

DOUBLE DUTCH CONTEST WORLD

An exciting fast-paced and creative jump rope event where teams compete speed and showcase creativity, precision, and teamwork. Some of the fastest jump rope athletes in the world will go head-to-head in spectacular speed events, while others will impress with dynamic freestyle routines featuring innovative skills, rhythm, coordination, and outstanding performance quality. DDC is a crowd-favorite discipline that combines world-class athletic excellence with creativity, excitement, and true team spirit.

ISF WORLD SCHOOL JUMP ROPE CHAMPIONSHIPS

In an exciting new initiative, the International School Sport Federation (ISF) has partnered with the IJRU to stage its inaugural international jump rope competition. Exclusively for school-aged athletes (11–18 years), this new event provides a thrilling international experience for schools and up-and-coming competitors. The ISF is a global leader in education through sport, championing youth development, inclusion, and cross-cultural friendship. This is a significant and welcome development for our school-based programs and competitions.

NORWAY OPEN

The Norway Open is a one-round competition that runs before the WC. While the WC features the top athletes, the Norway Open provides a platform for athletes aged 12 years and above to showcase their skills and prepare themselves for future elite competitions. It is an essential stepping stone for the next generation of top athletes. The qualification process varies by country due to limited entries per event.

EVENT BRANDING

BEHIND THE BRAND

ABOUT THE EVENT LOGOS

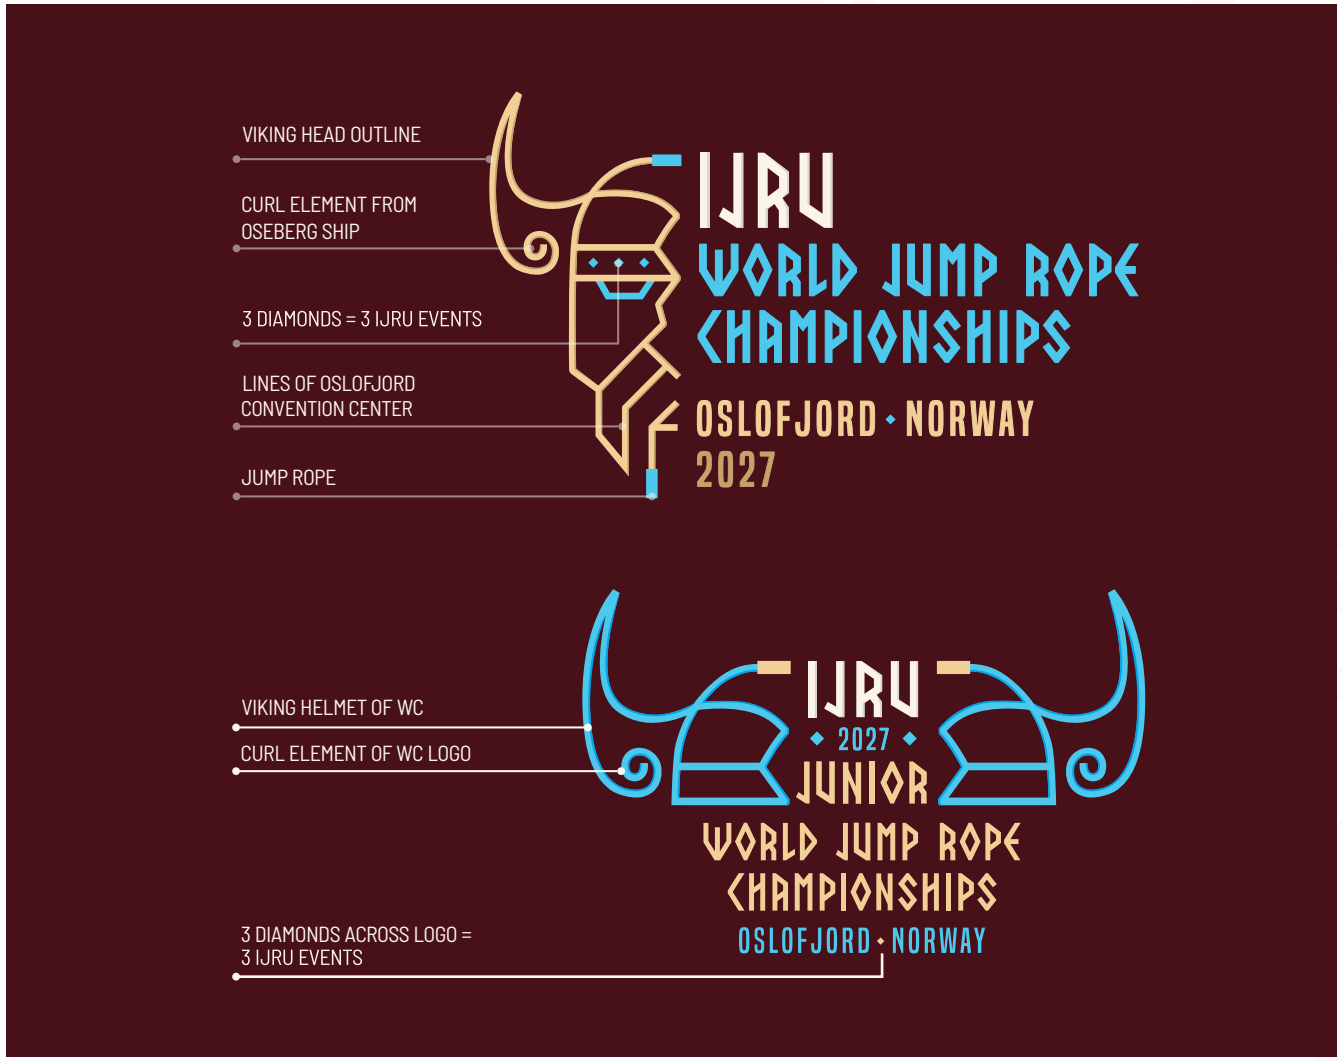

The 2027 Championship logo was inspired by the Viking history of Norway and the Oslofjord location of our event. The maroon, gold, and neon blue colors reference the Norwegian flag while creating a unique identity for the Championships.

The lines forming the Viking head were inspired by the layout of the Oslofjord Convention Center campus, and the swirl on the helmet references the Oseberg ships from Tønsberg.

The three diamonds represent the three IJRU World Championships held to date: Virtual 2021, USA 2023, and Japan 2025.

The Junior World Championship logo uses the same Viking helmet to connect the two event brands, while the Nordic-inspired font reflects both Viking symbolism and modern design.

The 2027 IJRU World Championships, Junior World Championships, and Norway Open logos and all associated branding are the intellectual property of the International Jump Rope Union (IJRU). The logo may not be reproduced, modified, or used without prior written permission from IJRU. To request permission, please contact wc2027@ijru.sport.

BEHIND THE BRAND

ABOUT THE EVENT LOGOS

The 2027 Norway Open logo was inspired by the long summer days in Norway. The summer sun brings happiness and warmth to our event. The five rays of the sun follow the five rings of the Olympics, showing our global reach of the event across five continents.

The swirl of the sun hints to the curly end designs of the Oseberg ship in Tønsberg, and provides the subtlest of connections to the WC logo elements. The strong blue, yellow, and red colors were chosen for their water, sky, and sun elements of summer and the national colors of Norway.

The simplicity and clarity of this logo design is meant to follow closely with the goals of the IJRU Norway Open: to create a collaborative and community environment, while providing an opportunity for jumpers to further develop in a fun, international competition.

The 2027 IJRU World Championships, Junior World Championships, and Norway Open logos and all associated branding are the intellectual property of the International Jump Rope Union (IJRU). The logo may not be reproduced, modified, or used without prior written permission from IJRU. To request permission, please contact wc2027@ijru.sport.
